

Teeth Whitening Premium X3 Refill

Art no: 121997

Up to 6 shades whiter teeth in 14 days

Claims:

- Up to 6 shades whiter teeth clinically proven
- Safe and without side effects
- Patented Gel formula with Dual Boost^{x3} Technology that cleans with detergents, whitens with sodium bicarbonate and coco-sulphate at the same time + 0.1% hydrogen peroxide for an even deeper whitening effect
- Includes Tooth Gloss that protects against stains and gives better gloss to teeth
- Compatible with all individually fitted mouth trays

Product description:

The X3 Premium Refill is for anybody who has previously purchased the Premium X3 Kit or who already has fitted mouth trays. It contains 8 ml 0,1% Peroxide Dual Boost^{x3} gel which should be used together with mouth trays and the Tooth Gloss post whitening treatment which gives enamel protection and extra shine.

The Dual Boost^{x3} gel first employs patented detergent technology (derived from coconuts) that lifts stains off of teeth rapidly, without pain and without damage to teeth. It then additionally whitens teeth with the allowed amount of 0.1% hydrogen peroxide.

Working mechanism in short:

The detergent technology creates negatively charged ionic foaming bubbles that work via ionic attraction to lift stain molecules away from teeth without increasing tooth sensitivity associated with typical bleaching gels that dentists use. The product also has special sodium bicarbonate whiteners, solvents and wetting agents for a deeper second wave of whitening activity that begins to work after 8 minutes. The detergent and whiteners together gives a Dual Boost activity for a more effective result.

Unique Competitive Advantages Premium X3 Refill:

- Compatible with any fitted mouth trays (for example from dentists)
- Unique Dual Boost^{x3} technology for a safe process and efficient result
- Uses 3 different mechanisms to remove stains and whiten teeth – three active ingredients
- Fast Dual Whitening Activity -> 1-2 shades in 30 minutes up to 6 when finished
- Includes free Teeth whitening app to guide and support customer during treatment in order to achieve the best result.
- Whitening treatments last longer because stains are actually removed
- Non-Abrasive. Does not scratch teeth enamel and works safely for all users.
- Safe – Developed and tested by dentists
