

Clear Skin Start Kit

Art no: 190097

Reduces appearance of pimples with up to 50% in 3 weeks

Claims:

- Reduces breakouts and strengthens skin
- Up to 50% reduction of mild to moderate pimples within 3 weeks
- Complete two step system
- Perfect for sensitive and dry skin - free from salicylic acid
- Safe and without side effects

Product description:

Beconfident® Clear Skin Start Kit is a complete system with everything necessary to reduce breakouts in two simple steps.

Working mechanism in short:

The Beconfident Clear Skin System attacks the pimples problem in two ways. First through the reduction of the common acne bacteria *Propionibacterium acne* and *Staphylococcus aureus*. Secondly by building the strength and elasticity of the skin, which helps to prevent but also relieve symptoms of any future active breakouts. Unlike most methods on the market that contain salicylic acid, Beconfident's products act with ingredients that will not dry out the skin or give other uncomfortable side effects.

Both Clear Skin Prepare (step 1) and Clear Skin Reduce (step 2) contain substances extracted from Bovine Colostrum - Natural raw milk. Prepare includes *lactoperoxidase*, an enzyme with very strong antibacterial properties. This enzyme effectively reduces the acne bacteria. These bacteria are normally found on the skin but effectively reducing them will minimize the symptoms of breakouts.

Clear Skin Reduce contains large amounts of IgG (*immunoglobulin G*) which is also extracted from colostrum and will together with *conjugated Vitamin A* improve skin quality. IgG has an anti-bacterial effect and helps to balance the skin's bacterial flora. Collagen helps to build the skin's thickness and elasticity, but when the degradation of collagen is greater than the production, the skin will become thinner and more sensitive. Conjugated Vitamin A in Clear Skin Reduce has a very good ability to penetrate the skin cells and also promote the growth of collagen but also reduce its degradation. The improved quality of the skin effectively contributes to the long-term resilience to new breakouts.

In an active breakout Prepare + Reduce work in parallel to relieve symptoms in the short term and strengthen the skin's own resistance in the long term. When the active phase subsides and there

are clear signs of improvement, usually after 3 weeks, we recommend continued use of only Reduce. At the next active phase combine again the two formulations as directed. It is important to complete the full course of treatment for 3 weeks for best long-term results.

Unique Competitive Advantages

- Easy two-step system
- Zero Salicylic Acid which means no skin dryness or redness
- Added Vitamin A (*retinyl palmitate*) strengthens skin
- IgG gives prolonged action and protection against future spots
- Beconfident® Clear Skin App support

Ingredients:

Clear Skin Prepare:

Aqua, Sodium Lauroyl Sarcosinate, Glycerin, Polysorbate 20, Hydroxyethylcellulose, Parfum, Potassium Sorbate, Sodium Benzoate, Potassium Thiocyanate, Lactoferrin, Citric Acid, Lactoperoxidase, Disodium Phosphate, Glucose Pentaacetate, Glucose Oxidase, Potassium Phosphate, Methylisothiazolinone, Biotin.

Clear Skin Reduce:

Aqua, Decyl oleate, Gluconolactone, Polysorbate 20, Cyclodextrin, Cetyl Alcohol, Glyceryl Stearate, Carbomer, PEG-75 Stearate, Sodium Benzoate, Steareth-20, Glycerin, Retinyl palmitate, Ceteth-20, Perfume, Palmitoyl tetrapeptide-7, Sodium hydroxide, calcium gluconate.

The Clear Skin Start Kit contains the following items:

- 1) 20 ml Prepare gel
- 2) 20 ml Reduce cream
- 3) Instruction sheet

Beconfident is not conducting any testing on animals.
