- Patented Gel formula with Dual Boost^{x2} Technology that cleans with detergents and whitens with sodium bicarbonate at the same time
- Includes Tooth Gloss that protects and gives better shine to your teeth
- Customized and reusable mouth trays
- Up to 10 days treatment

Product description:

The Dual Boost X2 Kit is a complete system to whiten your teeth at home fast, easy and gentle. It contains 10ml Dual Boost^{x2} gel which is used together with the thermoform mouth trays that are individually fitted with hot water. Within the first few minutes of application, the Dual Boost gel first employs patented detergent technology (derived from coconuts) that lifts stains off of teeth rapidly, without pain and without damage to teeth. The X2 Kit also contains a Tooth Gloss which is to be used after the teeth whitening for enamel protection and extra gloss.

Working mechanism in short:

The detergent technology creates negatively charged ionic foaming bubbles that work via ionic attraction to lift stain molecules away from teeth and also reduce teeth sensitivity associated with typical bleaching gels that dentists use. The product also has special sodium bicarbonate whiteners, solvents and wetting agents for a deeper second wave of whitening activity that begins to work after 8 minutes. The detergent and whiteners together give a Dual Boost activity for a more effective result.

Unique Competitive Advantages Dual Boost^{x2} gel:

- Unique Dual Boost^{x2} technology for a safe process and efficient result that uses 2 different mechanisms to whiten teeth – cleaning and whitening.
- Fast Dual Whitening Activity -> 1-2 shades in 30 minutes up to 4-5 (After full treatment)
- Whitening treatments last longer because stains are actually removed.
- Dual boost^{x2} gel made of eco healthy safe ingredients derived from Coconuts
- Three mouth trays that are individually fitted to optimize the contact between the gel and tooth surface. One tray extra in reserve.
- Non-Abrasive. Does not scratch teeth enamel and works safely for all users.
- Safe – No peroxide
- Includes free Teeth whitening app to guide and support customer during treatment in order to achieve the best result.
